COMBINE LEAF MEN

WHAT LOCAL DEALER SAYS

There is being mooted among certain of the tobacco men of the city a proposition to organize the leaf dealers in Virginia and North Carolina into a great combination, offensive and defensive, with money and a basal principle of pro-lon against the encroachments of the tobacco trusts, which are slowly, rely, eliminating the so-called "mid-

"I have been thinking about the proposition, but, though it might be a good thing to do, I hardly think it is practiseable. If we got together we could, of yourse, do a good deal. We could, together, reach fields which no single man might be able to compose; we might stop contignments to England and bring the interpedient factories there into line; we

the physical failure known as collapse is always impending. No financial frouble can cause half the suffering that follows disease and most disease comes from what we cat and drink.

It is no guess work but solld, scientific fact that coffee hurts about nine of every ten that drink it. It attacks the vital organs directly, and indirectly its ill results are frequently seen in the remotest corners of the body. right merily and aspirants for office are bobbing up in every direction. The situation is, in fact, growing distinctly lively, despite the fact that the primary will not be held until next September. Some of the calmer ones view this state of affairs with regret, helieving that by the time the election is held people and candidates both will be sick of it.

"We are running night and day ever the whole county. So far as I am concerned I would like to stpo it right short. But as long as the other fellow is going about I've got to do it too."

Some question has arisen as to which office is retained under the new system and which abolished—the county clerkship or the circuit clerkship. In two separate places the new Constitution states specifically that it is a county clerk that will have to be elected. In article VIII. "Organization and Government of Counties" it states that "there shall be elected by the qualified voters of anch county states, who

There resides in Henrico county a mighty Nimrod, who is a woman and whose record for the past season is an astonishing one. Mrs. Rochelle lives on White Oak Swamp and her fame as a shot has spread far and near. Recently Mrs. Rochelle was in the office of 'Squire Thomas and she graw an account of her achievements during the past season. She has killed with her gun, all told 1,000 robins, 10 woodcocks, 3 rabbits, and 8 squirrels. The game wasn't killed for the market. Mrs. Rochelle and her husband ate as much of it as they wanted and gave the remainder to neighbors.

Another prominent leaf-dealer and exporter who was seen said he had not been approached about the matter. Like the others he did not think that the plan was practicable.

MUST COME ABOUT.

The Southern Tobacconist of this city is directing attention to the movement, and is favoring it. In its issue of this week it declares that such a combination must come about. "We figure that among them (the leaf men) one and a half to two million dollars cash can be raised, and incorporated would avail to make the capital stock worth \$4,00,000 in leaf purchases. With the same purposes and ends in view as organized they could buy and hold and help the independent plants at a greater profit than singly com-A Seven Pines car containing a number of passengers, including several ladies was derailed Thursday night about \$33 o'cleck just opposite Hardin's Shop. HAD NARROW ESCAPE

Tug Upsets a Boat and Four Men Were In Peril.

in Peril.

Four young men had a narrow escape from being drowned yesterday afternoon in James River, the result of a collision. The young men were anchored in a rowboat in the channel of the river fishing, and their boat was run into by a vessel being towed by the tug Bentley, of Newport News, under the command of Captain Mainsfield, of North Carolina. The occurrence, from all accounts, was the neglect of the captain, who failed to blow for the party to clear the channel.

the neglect of the captain, who failed to blow for the party to clear the channel.

The tug towing the vessel left the city about 12 o'clock, bound for Norfolk, and was opposite the Cedar Works wharf when the vessel struck the boat, upsetting it and throwing the young men in the river. Three of them, Messrs. T. P. Flournoy, Marion Tricker and Long, awam to the shore, while W. L. Underwood climbed upon the barge.

The young men had reached the shore, and were wailing the return of the captain. They were "hot in the collar," and defied Captain Mainsfield to come ashore, and it was by hard work that they were prevented from going aboard the tug after the captain. The accident was witnessed by a hundred or more of fishermen, and all of them bitterly condemned the captain of their danger. Some of them think he miscalculated the distance, thinking the vessel would clear the boat.

According to the report yesterday, the body had been positively identified as Harry Willdisson, of Atlanta, a telegraph operator, who formerly worked in Lynchburg, and was well known in Richmond.

CLEVELAND NO CANDIDATE

His Trip to St. Louis Said to Have Been for the Purpose, Not of Boosting Himself, but of Ousting Mr. Bryan.

The Times-Dispatch Bureau, No. 1417 G Street, N. W.,

Washington, D. C., May 8th. Another railroad rumor is claiming the attention of Virginians here in Washington. It emanates from West Virginia, is given circulation by the Manufac-

the effect that the Baitimore and Ohio

Virginia, across Virginia to Chesapeake

The article is a brief one and says:

VIRGINIA HORSEMEN HERE.

A delegation of Virginia horsemen are here to attend the first meeting of the Cameron Run Hunt and Country Club. Among them are B. F. Garber and J. A. Garber, constituting the firm of Garber & Garber, of Harrisonburg; C. L. Rogers, of Cross Keys; J. T. Hall, of Linder, and W. F. Hale, of Nokesville, Mr. Hale has recently solder, part of ledler. and W. F. Hale, of Nokesville, Mr. Hale has recently sold a pair of ladles' phacton drivers to S. Z. Leiter, the millionaire capitalist of this city, who is best known as the father of Joe Leiter, who cornered the wheat market a few years ago. Garber & Garber have a string of horses which they have entered, consisting of a four-in-hand, two tandem teams, two double teams, one single team and a hunter, all bred in Rockingham county. Speaking to The Times-Diepatch correspondent about horse breeding in Rockingham and the Shenandouh Valley, Mr. Garber said: HORSES IN ROCKINGHAM.

Garber said:

HORSES IN ROCKINGHAM.

"In no part of the United States has there been as great an improvement in horse flesh in the past ten years as there has been in Rockingham. People are treeding to better sires, and it is giving us a class of horses which are second to sone in the country. Wherever they are taken there is a ready demand for them. Just a few weeks ago we took nine high steppers from Rockingham to Filladelphia and they were sold in abort order for \$3,000, or \$333 per head. During the past winter we shipped a carload of horses to Philadelphia each court day from Harrisonburg, and we would have sold as many more each time at good round prices if we could have gotten

ing as those in any county in the country. Each year our farmers are showing more attention to the raising of good horses, and I think that we will soon have the leading horse show in the State."

GROVER AND THE NOMINATION. Secretary Charles A. Edwards, of the Democratic Congressional committee, does not believe that there is any truth in the reports going the rounds that ex-President Cleveland is in any sense a candidate for the Democratic nomination for Fresident in 1904. Speaking to The Times-

RUMORS A Distinction.

There is a wide difference between readymade and "ready-to-wear." Our clothing belongs to the latter class-it is not readymade, because every garment is selected by us in the piece and made up according to our instructions and under our supervision-even the linings and interior trimmings must be of our standard; the result is that you get custom clothing without the usual annoyances.

Gans-Rady Company

Dispatch correspondent along that line, Mr. Edwards said to-day:

"I do not think that Cleveland is any more of a candidate for the Democratic nomination for the Fresidency than you and I are candidates, and you may depend on it that he will not be a candidate. It has been persistently said that he went to St. Louis to flirt with the Fresidential bee, but that was not me object of his trip at all. He went out there to try to feel the sentiment of those people and to give fresh impetus to the tide that is setting against Bryan in his own section. It is the plan of the reorganizers to eliminate Mr. Bryan from the political equation and to get away from his views on questions of governmental policy. Mr.

of Demogracy any good as a leader, are formulating such a plan.

It is said that those States in which the Demograts are friendly to Bryan will be allowed to go on and choose delegates to the national convention without any effort to check the movement. In the other States where his popularity as a leader has waned until he has no naterial following delegates will be chosen, pledged to a movement to set Mr. Bryan down rather hard. Those who are laying the plan claim that such a movement will give the Anti-Bryan people a clear majority in the convention. When it meets the dominant faction will go ahead, organize the convention, adopt a platform along same lines and give Mr. Bryan the alternative to stand on it or boit. It is surmised by those who are laying out the plan that he will boit. This may result in the defeat of the Demogratic party, they say, but they urge that they couldn't hope to win with him as leader, so that they would get rid of him from the high seats of the pollucial synagogue and at the same time pave the way for Democratic supremacy in 1966.

Whether this plan will work out in all its details or not no one here will venture to say, but there are a great many Democrats who say that it would be of unmeasurable good to the party if it should. Bryan still has a great many friends, but the concensus of opinion among Virginiahs seen in the hotel lobbles by The Times-Dispatch correspondent, as well as among Democrats from

friends, but the concensus of opinion among Virginiahs seen in the hotel jobbles by The Times-Dispatch correspondent, as well as among Democrats from every part of the Union, is that Bryan's usefulness as a leader is gone.

POSTAL CHANGES.

Postoflices have been established at the following points in Virginia:

inequality between the First and Second Districts should be remedled, and this is about all the measure does.

Coal Bill Goes Over.

The bill of Hon. Thomas H. Edwards, of West Point, designed to require coal dealers to deliver long instead of short tons of coal to consumers will probably be one of those which will go over without action until the fall session of the General Assembly,

Mr. Edwards yesterday agreed with some of the opponents of the measure not to press it at the present session, and this means that it will hardly come up until fall.

The Committee on James River Improvement held a brief session at City Hall last night. Only routine business was transacted and the pay roll and bills audited and ordered paid.
